

How to find which sub-organization a license server is registered under?

Please go to **License Portal** → **License management** → **Overview** → **Select master organization** → **Input keyword "LIC-SRV-Registration"** in **Entitlement filter** → **Input server name or server host id as the keyword in Host filter**

Example: Server *ADV_Training_Test_Server(EXAMPLEID)* is registered under organization *Advantest Training*

The screenshot shows the License Portal interface. At the top, there is a dropdown menu for "Master Organization" with the value "WW:Advantest_Training (WWAdvantest_Training)". Below this is a table with columns: Organization, Entitlement, Host, Technology, Product, and Remaining. The table has a filter bar above it with filters for "Organization", "Entitlement", "Host", and "Product". The "Organization" filter is set to "Advantest Training (Advantest_Training)". The "Entitlement" filter is set to "LIC". The "Host" filter is set to "AD". The "Product" filter is set to "Filter". The table contains one row with the following data:

Organization	Entitlement	Host	Technology	Product	Remaining
Advantest Training (Advantest_Training)	LIC-SRV-Registration_Advantest_Tra...	ADV_Training_Test_Server (EXAMPLEID)		N0010P-CD
